

§ 600.26

terminate an award or portion thereof under this paragraph only if both parties agree to the termination and the conditions under which it shall occur. If DOE determines that the remaining activities under a partially terminated award would not accomplish the purpose for which the award was originally awarded, DOE may terminate the entire award.

(e) *Effect of termination.* The awardee shall incur no new obligations after the effective date of the termination of an award (or portion thereof), and shall cancel as many outstanding obligations as possible. DOE shall allow full credit to the awardee for the DOE share of noncancellable obligations properly incurred by the awardee prior to the effective date of the termination.

(f) *Subgrants.* Awardees shall follow the policies and procedures in this section and in §§ 600.24, 600.160 through 600.162 or §§ 600.243 through 600.244 for suspending and terminating subgrants.

§ 600.26 Funding.

(a) *General.* The project period during which DOE expects to provide award support for an approved project shall be specified on the Notice of Financial Assistance Award (DOE Form 4600.1).

(b) *Budget period and continuation awards.* If the project period is 12 months or less, the budget period and the project period shall be coextensive. Multiyear awards, including formula awards, shall generally be funded annually within the approved project period. Funding for each budget period within the project period shall be contingent on DOE approval of a continuation application submitted in accordance with a schedule specified by DOE. A continuation application shall include:

(1) A statement of technical progress or status of the project to date;

(2) A detailed description of the awardee's plans for the conduct of the project during the coming year; and

(3) A detailed budget for the upcoming budget period, including an estimate of unobligated balances. A detailed budget need not be submitted if the new or renewal application contained future-year budgets sufficiently detailed to allow DOE to review and

10 CFR Ch. II (1–1–05 Edition)

approve the categories and elements of cost. Should the award have a change in scope or significant change in the budget, DOE may request a detailed budget.

(4) DOE shall review a continuation application for the adequacy of the awardee's progress and planned conduct of the project in the subsequent budget period. DOE shall not require a continuation application to compete against any other application. The amount and award of continuation funding is subject to the availability of appropriations.

(c) *Renewal awards.* Discretionary renewal awards may be made either on the basis of a solicitation or on a non-competitive basis. If DOE proposes to restrict eligibility for a discretionary renewal award to the incumbent grantee, the noncompetitive award must be justified in accordance with § 600.6(b)(2). Renewal applications must be submitted no later than 6 months prior to the scheduled expiration of the project period unless a program rule or other published instruction establishes a different application deadline.

(d) *Extensions.* Unless otherwise specified in the award terms and conditions, recipients of financial assistance awards, except recipients of SBIR awards (See § 600.181), may extend the expiration date of the final budget period of the project (thereby extending the project period) if additional time beyond the established expiration date is needed to assure adequate completion of the original scope of work within the funds already made available. A single extension, which shall not exceed twelve (12) months, may be made for this purpose, and must be made prior to the originally established expiration date. The recipient must notify the cognizant DOE Contracting Officer in the awarding office in writing within ten (10) days of making the extension.

§ 600.27 [Reserved]

§ 600.28 Restrictions on lobbying.

Procedures regarding restrictions on lobbying activities of applicants and recipients are contained in 10 CFR 601.110.
